

# NEW INTERNET BANKING

## Dear client,

We always look for ways to bring you new and better services. Now we are introducing a new version of our Internet and Mobile banking. With a brand new design, it will offer everything you are used to, as well as many new features. The new version is intuitive and **tailored specifically to the needs of clients with business accounts as well as clients with personal finances**. As a result you will have your finances under more control.

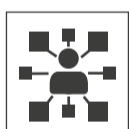

## WHEN AND HOW

- The new Internet and Mobile banking is already being used by most of our clients with personal accounts. **This year**, in several separate launches, we will provide the new version to those of you, who have business accounts or have personal accounts connected to business accounts.
- **We will inform you about the specific date via message in your current Internet banking, e-mail and a SMS the day before.**

## HOW TO LOG IN

- **Your login details for Internet and Mobile banking will remain the same.**
- You will still log in at [www.rb.cz](http://www.rb.cz) and **after entering your client number and clicking the „Send code“ button, you will be forwarded to the new Internet banking login page**. There, you will finish logging in by entering the SMS code and I-PIN. The Mobile banking login process remains unchanged.

## WHAT THE NEW INTERNET BANKING OFFERS YOU

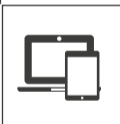

**Control over multiple business accounts under one login.**

Current status of all your products clearly displayed on the homepage after logging in.

Batch payments can be imported from your accounting system and their confirmation can be signed in the Mobile banking.

New, modern and intuitive banking customized to all regular devices.
